

MARTIN SHERIDAN  
Famous all-around athlete and Olympic Games champion, says:

"Tuxedo is a strong card with me. I advise all athletes to stick to Tuxedo. It is the one tobacco that will help them keep them in trim, prevent them from going stale. Tuxedo leads—bar none."

GASTON STROBINO  
Champion Marathon runner, hero of Olympic Games at Stockholm, says:

"Tuxedo is the tobacco for the athlete. It never hurts my wind, and always steadies my nerves. Tuxedo for me."

MATT McGRATH  
Champion weight thrower, winner at Olympic Games, Stockholm, says:

"No athlete need fear to smoke as much as he wants, if he uses Tuxedo. It's a general help to any man. A pipeful of Tuxedo puts new life into me."

Matt McGrath

## Our Leading Athletes

Join with other famous Americans in Praising Tuxedo Tobacco

OUR world-famous athletes—the men who triumphed for America at the Olympic Games in Stockholm—are among the thousands who declare that Tuxedo is not only extremely enjoyable, but beneficial.

Famous Americans in every walk of life—doctors, lawyers, actors, singers, public speakers, statesmen, business leaders—smoke and endorse

# Tuxedo

The Perfect Tobacco for Pipe and Cigarette

Tuxedo grew rapidly in public favor without advertising; its natural growth reached the stupendous total of fifty or sixty million packages a year. Not until the past few months has it been possible to keep up with the demand for Tuxedo. Now increased facilities make it possible for every man to smoke this best of tobaccos.

Tuxedo is fine, ripened Burley tobacco of the highest grade—aged until thoroughly mild and mellow. Then treated by the famous "Tuxedo Process," that removes the last trace of "bite" and develops all the delicious Burley fragrance and flavor. Pure, mild, delectable Tuxedo is absolutely non-biting—try it.

## HOW THE BIG TRUSTS

ARE AFFECTED

They Can Buy Their Labor in Cheap Markets and Dump Its Products On This Country.

(Indiana State Journal.)

During the course of the crusade against the Protective Tariff law repealed last October, the claim was frequently made that the Steel Trust had been favored in its schedule, and that, in fact, the United States Steel Corporation and similar organizations were active in dictating the provisions of the measure. The facts did not matter; the people were made to believe this. The truth is that Mr. Carnegie has long been reflecting the opinion of the Steel Trust in his declarations for Tariff "reform." The Steel Trust has become international—it would like to buy and manufacture in the cheapest labor and material markets of the world, knowing that it is strong enough to protect itself by agreements and the other weapons of monopoly against competition in the American market.

The prediction was made by Protectionists that the repeal of the steel Tariff would be a matter of fact benefit the Steel Trust ultimately, because it would thereby be enabled to retain this market and at the same time erect plants in the cheap labor, cheap raw material markets of Europe and the Orient. The trust, it was said—and this is being proved—would be benefited by the injury inflicted upon its independent competitors in the United States and the impossibility of their withstanding the competition of the foreign producer. These predictions are working out. Unquestionably the Steel Trust magnates have been surprised by the effect the blow struck at the general prosperity of the country by the new Tariff law has had upon their business.

But big business is at this moment fulfilling the predictions of Protectionists by preparing to establish plant abroad. The Standard Oil Company group recently made an investment of many millions in the oil fields and industries of China. It is now stated that the Bethlehem Steel Company, of which Charles M. Schwab is the moving spirit, has arranged to lend thirty million dollars to the Chinese Government for the erection of a naval dock and defenses at Shanghai. This is taken to overshadow the establishment of steel plants in China by this American corporation. Hankow already has one of the largest steel plants in the world, with iron, coal and water carriage all grouped in one spot, and labor at from 7 to 12 cents a day. Nagasaki has the second largest steel mill in the world, also operated under a wage scale that would not keep an American household in milk and butter. An immense steel mill is being erected in the Ganges basin. India has untold millions of people willing to work for a few cents a day. With free access to American markets for the finished output of such mills why should the United States Steel Corporation worry about high costs of production in the United States? It can close its plants in the United States and manufacture with coolie labor. And this is the sort of thing our Government is engaged in encouraging.

The Beef Trust has, of course, shown us just how Free Trade in live stock and meat destroys it. The Beef Trust long ago got ready for Tariff reform by getting control of the meat supply in South America. One may well imagine just how real was that alleged battle of the Beef Trust against Tariff revision downward when the infamous Payne Aldrich law was being framed. Yet the people were gulled by this buncombe in the magazines and newspapers and in the mouths of politicians.

Tariff reform turns out to be a most preposterous fake. It hasn't revised downward the high cost of living. It hasn't put a crimp in the trusts, as the Baltimore platform said it would. It hasn't done anything except to throw hundreds of thousands of American wage earners out of work, paralyze industry, and put business on the blink. But it has given American big business a chance to buy labor in the cheap markets of the world and dump the product on the United States.

## EFFECTS OF THE WAR

Felt at National Cash Registry Plant—Curtailed, Begun.

Dayton, Ohio.—An order was promulgated at the National Cash Registry Company's plant providing for the payment of salaries to all office employees only for the time actually put in, the method heretofore having been that remuneration was allowed when the factory was shut down for a portion of the week.

The European war has made it impossible for the company to market its wares abroad and the foreign department is tied up. This affects the entire plant. Only officers of the company will receive their salaries. The cut in the force began last Monday. In a short time 150 salesmen will report in Dayton to prepare for a more vigorous American campaign. Shipments to South American ports will also be materially affected.

The American Chamber of Commerce in Paris appointed a committee to consider the advisability of giving practical aid to the French nation by facilitating financial exchange.

To become an actress a woman must combine talent with work and study. But all she needs to become a star actress is good looks and a backer with money.

## LEXINGTON FAIR MADE MONEY.

The management of the Bluegrass Fair confidently expect to at least break even financially on the show given last week, and Treasurer John Cramer stated that when the receipts from the sale of season tickets made by Lexington merchants are brought in that the balance of profit will be sufficient to pay off the indebtedness of \$1,800 left over from last year. "While the attendance on Thursday, Friday and Saturday was large, it fell short of the attendance for the corresponding days last year," said Mr. Cramer. "The shortage Friday was about \$1,500; Saturday, \$300, and Thursday, \$200."

The State Department at Washington is now in touch with all its embassies and legations abroad, and every effort is being made to look after Americans in Europe.

Buck Kilby says a genius is a man who can save money.

## WOMAN WOULD NOT GIVE UP

Though Sick and Suffering; A Last Found Help in Lydia E. Pinkham's Vegetable Compound.

Richmond, Pa.—"When I started taking Lydia E. Pinkham's Vegetable Compound I was in a dreadfully rundown state of health, had internal troubles, and was so extremely nervous and prostrated that if I had given in to my feelings I would have been in bed. As it was I had hardly strength at times to be on my feet and what I did do was by a great effort. I could not sleep at night and of course felt very bad in the morning, and had a steady headache."

"After taking the second bottle I noticed that the headache was not so bad, I rested better, and my nerves were stronger. I continued its use until it made a new woman of me, and now I can hardly realize that I am able to do so much as I do. Whenever I know any woman in need of a good medicine I highly praise Lydia E. Pinkham's Vegetable Compound."—Mrs. FRANK CLARK, 3146 N. Tulip St., Richmond, Pa.

Women Have Been Telling Women for forty years how Lydia E. Pinkham's Vegetable Compound has restored their health when suffering with female ills. This accounts for the enormous demand for it from coast to coast. If you are troubled with any ailment peculiar to women why don't you try Lydia E. Pinkham's Vegetable Compound? It will pay you to do so. Lydia E. Pinkham Medicine Co., Lynn, Mass.
